SUMMARY

Software Development Engineer with experience building web applications using React.js, JavaScript, HTML5, CSS3, Java, and REST APIs. Skilled in frontend development, responsive design, API integrations, cross-browser compatibility, and enterprise application support. Experienced in Agile software delivery, UI development, debugging, and building scalable user-focused web solutions.

TECHNICAL SKILLS

Frontend Development:	React.js, JavaScript, HTML5, CSS3, Node.js (Basic), Responsive Design, Adaptive Design, Cross-Browser Compatibility, Browser Compatibility Testing, Web Application Development, UI Development, Reusable Components
Backend & APIs:	Java, REST APIs, API Integration, API Testing, Backend Services, API Analysis
Databases & Cloud:	MySQL, SQL Query Optimization, Database Design, Relational Databases, Cloud Computing Fundamentals, Client-Server Architecture, Software Deployment Concepts
Tools & DevOps:	Git, GitHub, GitLab, Postman, JIRA, VS Code
Professional Skills:	Software Development Lifecycle (SDLC), OOP, Data Structures & Algorithms (DSA), Agile Methodologies, Debugging, Problem Solving, Team Collaboration

EXPERIENCE

Amdocs	Gurugram, India
Software Development Engineer (SDE)	July 2025 – Present
- Developed and supported enterprise web application modules and backend services using Java and REST APIs, maintaining 99.9% system availability across customer and order management platforms. - Partnered with cross-functional frontend teams to trace application behavior, align API JSON schemas, and debug client-server data flows, resolving 100+ production incidents. - Debugged complex enterprise web applications through log analysis, API tracing, and database query inspection to verify backend transaction stability. - Contributed to software release cycles by managing source code integration, version control workflows, and deployment validations using Git and GitLab. - Collaborated in Agile sprint meetings, design reviews, and schema validation workshops to support continuous application delivery.	

Kaspro Solutions	Remote, India
Web & Full Stack Developer Intern	January 2025 – June 2025
- Developed responsive and cross-browser compatible web interfaces using HTML5, CSS3, JavaScript, and REST API integrations, ensuring consistent user experiences across multiple devices and browsers. - Configured robust JDBC database connectors with MySQL relational databases to enforce database schemas and ensure transactional validation. - Developed client-side validation logic and interactive UI features to optimize registration workflows and user data collection. - Participated in software design, team code reviews, browser testing, and defect resolution within an Agile development framework.	

PROJECTS

AI Incident Management System	Tech Stack: React.js, JavaScript, HTML5/CSS3, Java, REST APIs GitHub Link
- Developed a responsive React.js web application featuring reusable UI components, REST API integrations, and interactive dashboards for incident monitoring and workflow management. - Built reusable React.js UI components and integrated REST APIs to visualize incident metrics and support interactive user workflows. - Designed cross-browser responsive layouts to deliver a clean, device-agnostic user experience across web browsers.	
Healthcare Management System	Tech Stack: Java, MySQL, JDBC, OOP GitHub Link
- Built a healthcare management system utilizing Java and MySQL to support secure scheduling and user registration. - Implemented robust database adapters using JDBC to execute transactional operations and validate relational data schemas.	

EDUCATION

Galgotias University	Greater Noida, India
B.Tech in Computer Science & Engineering	2021 – 2025

CERTIFICATIONS

- Amdocs GenAI Certification • SQL & Database Fundamentals (Udemy)
- Java Development Certification (Udemy) • DSA 300 Questions Practice Track
