SUMMARY

Software Engineer with 1+ years of production experience designing and operating scalable backend services, distributed systems, and cloud platforms on **Azure and AWS**. Proven track record in improving live-site reliability, capacity management, and telemetry using **Java, Python, and SQL**. Skilled in containerization (**Docker, Kubernetes**), CI/CD pipelines, and resolving critical production incidents.

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript, SQL, PowerShell, Bash
- **Backend Frameworks:** Spring Boot, Node.js (Express), RESTful APIs, Microservices, Kafka, Redis
- **Cloud & DevOps:** Azure, AWS, Docker, Kubernetes (AKS), CI/CD (Azure DevOps, GitHub Actions), Linux/Unix
- **Databases & Observability:** MySQL, MongoDB, PostgreSQL, Prometheus, Grafana, Git

PROFESSIONAL EXPERIENCE

Associate Software Engineer

July 2025 – June 2026

Amdocs

Gurugram, India

- Engineered and optimized high-performance **RESTful APIs** using **Java and Python**, integrating **Kafka** event streaming and **Redis** caching to ensure reliable data flow across distributed microservices.
- Led backend feature development from design through cloud deployment on **Azure**, collaborating with workload and partner teams to deliver secure platform capabilities.
- Resolved **200+ production incidents** through root-cause analysis and system debugging, improving platform resilience and service health by **30%** while participating in on-call rotations.
- Developed **50+ automation scripts** in **Bash and Python** to monitor capacity in a **Linux** environment, leveraging **Prometheus and Grafana** to track telemetry and reduce manual toil by **40%** while maintaining **99.9%** service availability.
- Automated deployment reliability and operational excellence by configuring robust **CI/CD pipelines (Azure DevOps)** for **Docker** containerized microservices on **Kubernetes (AKS)**, securing stable production releases across multiple cloud regions.
- Documented platform service architecture and analyzed system telemetry, proposing optimizations that improved compute platform performance and scalability.

Web Developer Intern

Jul 2024 – Jun 2025

Kaspro Solutions

Mohali, India

- Developed enterprise backend services and REST APIs using **Java, J2EE, and Node.js (Express)**, delivering reliable, versioned endpoints for high-traffic financial applications.
- Integrated backend platform services with **MySQL** and **MongoDB** databases, writing optimized queries and indexes to ensure sub-second data retrieval times and transactional consistency.
- Collaborated with cross-functional teams in **Agile/Scrum** sprints to perform integration testing, resolve software defects, and support production-ready service releases.

PROJECTS

AI Incident Management System

GitHub

Node.js (Express), MongoDB, React, Google Gemini AI, Inngest

- Developed an event-driven support platform using **Node.js (Express)** and **MongoDB**, implementing incident management and ticket prioritization features.
- Configured background workflow pipelines using the **Inngest Workflow Engine** to orchestrate asynchronous tasks, automating resolver assignment and SLA tracking.
- Built a responsive **React and TypeScript** frontend with protected routes, analytics, and real-time incident updates.

Free JSON to CSV Converter

freejsontocsv.com

React.js, JavaScript, Browser File APIs, HTML5/CSS3

- Launched a high-performance client-side web application converting **JSON to CSV**, serving **20K+ monthly users** while ensuring secure, zero server-side data processing for enhanced privacy.
- Engineered a scalable client-side parsing engine with nested data flattening algorithms and **Web Workers**, optimizing large file processing, browser performance, and responsive UI without blocking the main thread.

EDUCATION

Galgotias University

Greater Noida, India

B.Tech in Computer Science & Engineering | CGPA: 8.55/10

2021 – 2025

CERTIFICATIONS & ACHIEVEMENTS

- **Java Development Certification** – Udemy | **GenAI Certification** – Amdocs | Solved **500+ DSA problems** on LeetCode and GeeksforGeeks
